**INSPECTORS MAY
LOOK INTO METERS**

Measures of Gas And
Electricity To
Be Tested

The failure to become law of the
resolution introduced in the House
of Representatives toward the end
of the session providing for the ap-
pointment of an inspector of gas
and electric light meters may not
prevent a systematic inspection of
the measures of these commodities.

It has been brought to the atten-
tion of the Superintendent of Pub-
lic Works that there is a statute
providing for an inspector of weights
and measures, and there is such an
official in the pay of the Territory.

Hitherto it has not been a part of his
duties to inspect the gas and electric
light meters. But these meters are
the measures used in selling two
commodities to the public, and as
such there appears no reason why
they should not be subject to the
same inspection as are scales and
quart measures.

Acting Superin-
tendent of Public Works Klengel
takes that view of the matter, but
will probably leave it in abeyance
until the return of his chief.

As the situation now is, the gas
company and the electric light com-
pany are the sole judges of the cor-
rectness of their measures. If a man
goes to a store and pays for a quart
of milk and has reason to believe
that he has not got a full quart he
can measure the commodity him-
self. Or if he buys meat, he supposes
to be a pound of meat he can, by
weighing it himself, make sure that
he is not being cheated, or if he
finds that he has been given short
weight he can prove it.

But if the gas company sends him
a bill for a thousand cubic feet of
gas, he has to take the word of the
corporation for the amount he ac-
tually owes for. It is the same way
with the purchase of electricity.

The consumer has no way of know-
ing that his meter is correct or that
he is getting what he pays for.

The matter has also been brought
to the attention of the Attorney-
General, who has promised to look
into it and see whether or not the
statute providing for an inspector
of weights and measures can be
made to apply to the two public ser-
vice corporations.

Governor Frazier, when asked about
it this morning, was inclined to be
non-committal, but stated that a gas
or electric light meter is certainly a
measure of a commodity and it
would seem natural to suppose that
the statute might be made to apply.

**NOISY BOYS ANNOY
AN OLD GENTLEMAN**

Some five or six youths who are
accustomed to hanging around the
residence of Mr. Peter McIntyre, who
resides over the Queen's Hospital,
have been in the habit of annoying
the old gentleman, and he has at
last had to complain to the police
about the matter. Chief Leal took
the matter up and paid a visit to the
vicinity, and after warning the boys
informed their parents that if the
lads were not better behaved in the
evenings the whole bunch would be
arrested.

The boys are alleged to be a nu-
isance to all the neighbors and to
have been very noisy in the vicinity
of McIntyre's house.

KUHIO ILL

**DAVID MANUEL IN
PILIKIA ONCE MORE**

David Manuel, once a member of
the police force, is in custody at the
Police Station. He is charged with
having used threatening language
and of having declared his intention
of killing a friend of his. His men-
tal condition seems to be in doubt,
and he is to be examined by Dr.
Emerson as to his sanity.

He appeared in court this morn-
ing and talked in a most peculiar
manner of everything except the
charge against him. He made fre-
quent reference to the safe, which
was stolen some time ago and hidden
in a tree patch. His statement was
of a rambling nature, and he would
break off on a new track at the
slightest provocation.

He made some serious allegations
about Attorney Magoon, whom he
accused of putting him in jail in
order to serve his own ends in re-
gard to certain matters. Judge An-
drade, although rather inclined to
think Manuel was bluffing insanity,
decided to have him examined by the
doctor.

The Weekly Edition of the Evening
Bulletin gives a complete summary of
the news of the day.
